Process Reinforcement for Sales Leadership

### Positive Communication for Managers

30-Minute Session

**October 3**

It is not just what you say, but how you say it that can make a tremendous difference in how your employees and others perceive you. This workshop will discuss how to turn negative phrases into positive phrases so that employees are receptive to decisions, feedback, and information you discuss with them.

### Inspecting Plans

*"If you fail to plan, you plan to fail."*  
– Coach John Wooden

**October 6**

A sports coach might refer to the “play,” which is the plan to take one or more skills to achieve a specific outcome. Plays and plans include three critical components: **what, how much, and by when.**

We will be looking at “inspecting what you expect” within plans to create actions that will take client/member relationships to World-Standard levels.

### New! Honest Conversations

**October 24**

Providing honest feedback to your team ensures that performance levels do not remain stagnant. Constructive feedback is not only right for the employee but is the right thing to do for your clients/members. This session will prepare managers to communicate honestly with their teams as they provide continued coaching.

## Updated! Maximizing Your Coaching

**October 31**

You wake up in the morning, make coffee, get the paper, pour the coffee, read the sports page, and head to the shower. This is your routine. Routines allow us to be consistent and efficient, while becoming the best of the best. The same applies to our daily and weekly coaching skills, which we will discuss during this session. Perfecting your weekly meetings, huddles, debriefs, and scriptwriting will be our focused topics.

## Positive Presence

**November 7**

You have found yourself in the middle of a merger, a restructure, or a systems change within your organization. As a manager, how do you deal with employees? How do you deal with your own feelings? How do

you deal with client/member objections? What opportunities are involved?

During this session, we will discuss: 1) The impact the merger has on you as an individual, 2) The impact it has on your employees and how you deal with that, and 3) The impact it has on your clients/members.

## Time Management

*Your Most Valuable Resources: Time and People*

**November 14**

Time and again, our clients state that they don't have enough of these valuable resources. We can assist you in leveraging what you do have by ensuring that your time, and your people's time, is spent on the most powerful actions that will immediately impact results and service quality. Learn key tactics to maximize your time and energy and to assist you in getting your priorities completed.

## Distance Management

**November 16**

Time management is critical, and finding ways to use our time most effectively is something we are all attempting to accomplish. Distance Management is one time-management solution. This session will provide participants with a clear understanding of how to implement Distance Management for management techniques such as coaching, rounds, briefings/debriefings, skill enhancement, and sales meetings.

## Conducting a Hidden Clues Clinic

**November 30**

A Hidden Clues Clinic teaches your team how to identify specific financial clues from clients/members and the actions to take based on those clues. We will run through the process of the clinic as well as how to script a related Tag-on and a benefit statement to use during a banker conversation.

## **Updated! Coaching Behaviors That Will Improve Results**

**December 7**

As we all know, coaching is a process that is ongoing; it is something that never stops. Think about any professional sports team. The coaching staff doesn't say, "Hey your completions (foul shots, strikes) were really low last week so we want you to throw to the various receivers for the next few hours. We're going to head down to the locker room for some meetings today and we'll check back with you at the end of the day to see how it went." Think that is what happens? Not at all! We will discuss a process that allows the manager to coach the team to obtain positive results.

## **Updated! Creating a Vision Statement**

**30-Minute Session**

**December 14**

The end of the year is a time for reflection and identifying what we will improve for the upcoming year. In this session, participants will create a focused 2018 personal vision statement, along with an action plan to make their vision a reality.

## **Leadership That Builds Successful Teams**

**December 19**

The focus during this session will be on the Ten-Step Leadership Model. Each step from Visions to Relationship Techniques allows you as a leader to build a successful team no matter what level you may be managing.

## **Process Reinforcement of Selling Skills**

## **Commitment to Follow-Up**

**October 17**

Following up with your clients/members/prospects can be one of the biggest sources of business generation and is the center of World-Standard service. The commitment to follow-up is a behavior that must be embedded with each sales and service professional.

## **Don't Forget About Investments**

**October 19**

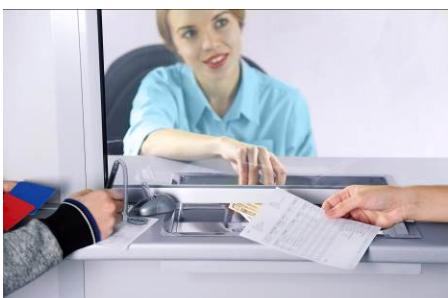

As you review your profiles looking for missed opportunities, you might notice the investments category is often ignored or the amount of information gathered is minimal. We will review how to transition from any category to investments as well as discuss the most important probing questions to uncover clients'/members' or prospects' investment needs.

## Meet and Greet

**October 26**

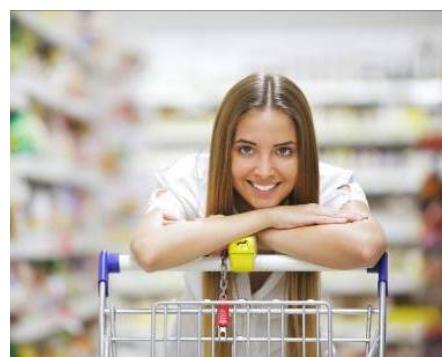

Your lobby is always full of clients/members, in other words, opportunities. Since opening their accounts, your opportunity to talk to these clients/members has normally been very limited. As you meet and greet, you will find potential opportunities. This session will discuss methods for approaching clients/members and prospects and the hidden clues to look for when greeting them in your lobby.

## Tellers Drive to the Bottom Line

**November 2**

Tellers are being trained to identify clients/members who might want to buy services. This task requires tellers to learn about the various financial products and services the bank/credit union offers so that they can explain them to clients/members and refer interested clients/members to appropriate specialized sales personnel. How to create the awareness will be the focus of this session.

## Webinar: Handling the Rate Shopper

**November 28**

Each interaction with a client/member is an opportunity to assist that person with a financial need. Handling the Rate Shopper will focus on how to take this inquiry to a current or future sale.

## Digging Deep into Probing Questions

**December 5**

Uncovering the known and unknown needs, the current needs, and the future needs of your clients/members/prospects is the core of the Mini-FiNAP<sup>SM</sup>. During this session, we will focus on the effectiveness of open-ended and closed-ended probing questions/statements that take you to the financial recommendations for your client/member/prospect.

## Improving Your Teleconsulting

**December 12**

Improve your teleconsulting calls through focused preparation, entry lines that establish credibility and interest, and proper note-taking. These skills will be discussed during this workshop that will enhance your calls. Please bring a current teleconsulting scenario to the call.

## Why Conduct Business with Us?

**December 21**

This session focuses on creating a Differentiation Statement that sets you apart from your competition. An ordinary professional will sell price first, but you want to go beyond price and convince a prospect that you are the World-Standard organization with whom they should do business.

## Sales Champion's Corner

These sessions are appropriate for those who train others within the organization.

## Excellence Olympics
